

5-megapixel H.265 Indoor Dome Network Camera with iA

WV-S2250L

5MP Indoor Fixed Dome Camera

KEY FEATURES

- 5-megapixel images up to 30 fps
- iA (intelligent Auto)
- Super Dynamic 120dB
- H.265 Smart Coding
- FIPS 140-2 Level 1 compliant

Panasonic WV-S2250L captures the highest quality images in even very challenging and dynamic environments.

Intelligent Auto (iA) monitors scene dynamics and motion to adjust key camera settings automatically in real-time reducing distortion such as motion blur on moving objects.

The [i-PRO Extreme](#) 5MP camera can monitor 1.3 times the distance and width and 1.8 times the area of conventional FHD cameras, allowing for visibility of license plates and faces within the surveillance zone. Also, the camera enables clear colour images in low light conditions even at night time (0.0044 to 0.07 lx). The iA-Intelligent Auto feature monitors scene dynamics and motion to adjust key camera settings automatically in real-time, reducing distortion such as motion blur on moving objects.

Adopting H.265 [Smart Coding technology](#) intelligently reduces bandwidth efficiency of up to an average 95 percent over H.264 for longer recording and less storage.

Out of the box, the camera supports [full data encryption](#) streaming and is compliant to FIPS 140-2 Level 1 standards to keep your video secured.

This camera is perfectly suitable for applications like airports (passport control, security checkpoint or ticket counter), banking, education, retail, and many more.
